allnex

allnex® is a leading producer of liquid coating resins and additives (LRA), performance resins & crosslinking resins.

Solvent-borne and Water-borne resins and additives: Alkyds, Acrylics, Epoxies, HPO's, Sag Control Additives, Saturated Polyesters, Non Isocyanate systems, Polyamide, Unsaturated Polyesters, Polyesters, PUDs Hybrids, CED & AED.

Trade names: Beckocure®, Beckopox®, Daotan®, Duroftal®, Duroxyn®, Macrynal®, Resydrol®, Roskydal®, Setal®, Setalux®, Setaqua®, Setathane®, Tungophen®, Viacryl®, Vialkyd®, Viapal®

Additives: Pigment dispersants, Flow & Levelling agents, Driers, Defoamers, Anti adhesion, Catalysts.

Trade Names: Additol®, Cycat®, Modaflow®, Multiflow®

Cross Linkers: Acid Catalysts, Aminos, Cyclized rubber, Phenolics & Phenolic Novolacs.

Trade Names: Alnovol®, Alpex®, Cycat®, Cymel®, Cyrez®, Phenodur®, Setamine®

ICAP SIRA founded in 1945, Icap Sira is a family-owned company who are committed to the production, development, and commercialisation of a wide range of speciality polymers for the coating, packaging and inks, textiles, and nonwovens business sectors.

Their chemistry covers water based acrylics, styrene acrylics, vinylic copolymers and PU dispersions, bio-based acrylics, bio-based styrene acrylics and bio based PU's, thickeners and cross-linkers. Icap Sira also offer solvent based PU's for the textile industry. Icap Sira offer a product development service to develop bespoke products to meet the customer's needs.

Trade names: Acrilem®, Acris®, Acrythane®, Cleancap®, Icafinish®, Icaflex®, Icaplink®, Icapsil®, Icapore®, Icatack®, Icawet®, Idrocap®, Idrocril®, Idropur® and Ireos®

IOI OLEOCHEMICAL

IOI Oleochemical is one of the largest oleochemical producers with principle activities of manufacturing fatty acids, glycerine, soap noodles, fatty esters and speciality downstream oleochemical derivatives worldwide.

Their versatile products are used in a wide variety of applications, including the manufacturing of detergents, surfactants, shampoos, soaps, cosmetics, pharmaceutical products, food additives and plastics.

These carbon chains are often referred to as C8, C10, C12, C14, C16 and C18 (Myristic Acid, Palmitic Acid, Oleic Acid, and Stearic Acid) RSPO Certified.

Trade names: Palmac® Fatty Acids, Palmsurf® Esters, Palmsabun® Soap Noodles

Mitsubishi Chemical Group - Formerly known as Lucite International, Mitsubishi Chemical Group have many decades of experience in the acrylics industry. They are a leading manufacturer of a wide range of solid bead acrylics and acrylic solutions, for a number of specialist applications.

Key Divisions: Dental, Medical, Porous Moulds, Coatings, Inks, Adhesives, Glass Interleavants, Castings and Embedments. UV Reactive Bead Acrylic.

Solution Acrylics for coatings, conformal coatings and pressure sensitive adhesives.

Trade names: Colacryl™, Elvacite™, Lucite™

Siliconi Commerciale S.p.A was established in 1957 and is a cutting-edge manufacturer of technical sprays and silicone additives.

Their product portfolio includes silicone and silicone free defoamers, green antifoams, silicone oils and emulsions, dispersing agents, waxes and hydrophobic water repelling agents for all surface coating applications, paints, inks, flooring and construction. With state-of-the-art research and development laboratories in Italy supporting sales worldwide.

Siliconi Commerciale S.p.A carries out its production process on a daily basis through the choice of raw materials, which guarantee eco-compatible and safe products, and through the use of renewable sources.

Trade names: Emulsil®, Esasil® Micros. Macros. Silcer. Siltop, Silair® Sildis. Greasil. Fluido.

SIR Industriale SPA are a family owned company based in Italy and have been manufacturing since 1965.

Featuring their solvent-based, solvent-free, solid epoxy resin & HAA curing agent ranges. SIR are known to be one of the few producers using the two different types of manufacturing methods of either taffy or advancement/fusion processes to make their epoxy resins.

Trade names: Eposir, Eponac, Prosid®

SYNTHITE

Synthite offer Formaldehyde in aqueous solutions and also Paraformaldehyde in prill, or powder forms, servicing various applications as Resins, Biocides, Preservatives, Agrochemicals and Chemical Intermediates

Vinavil, part of the Mapei Group, are a leading company in the Italian chemical industry and have been established for over a century. They offer a complete range of polyvinyl acetate, vinyl veova and vinyl acetate ethylene copolymer emulsions, vinyl acrylic, styrene acrylic, pure acrylics, nanotechnology based products and fully formulated adhesives for various industries.

Polyvinyl Acetate, Vinyl Acetate, Acrylics, VeoVa and Vinyl Acetate/Ethylene Copolymer for Coatings and Adhesives, Pressure Sensitive Adhesives (PSA), Redispersible Powders for cement modification and tile adhesives.

Trade names: : Vinavil®, Vinavil EVA®, Crilat®, Ravemul®, Raviflex®, Vinaflex® and Vinapur®
