GMS, IPM & IPP

SUSTAINABILITY/RSPO/MB –

There is in an ever-urgent need that material is produced without undue harm to the environment or society. RSPO Certification is a seal of approval initiated with the help of founding member IOI Oleochemicals, ensuring that the palm oil is responsibly produced. The certified sustainable palm oil is traceable throughout the supply chain by certification of each facility along the supply chain that processes or uses the certified oil. RSPO grades are available for most products, so please check with the product Manager.
