Tennants Comprehensive Services for the Metal Treatment & Finishing Industry

Our Comprehensive Portfolio includes:

Acids

Boric Acid
Citric Acid
Fluoroboric Acid
Glycolic Acid
Hydrochloric Acid
Lactic Acid
Malic Acid
Nitric Acid
Oxalic Acid
Phosphoric Acid
Sulphamic Acid
Sulphuric Acid

Alkalis

Ammonia
Borax
Caustic Soda Liquor
Caustic Soda Pearl
Potassium Hydroxide
Sodium Carbonate
Tetrapotassium Pyrophosphate
Tetrasodium Pyrophosphate

Salts

Ammonium Chloride
Copper Sulphate
Potassium Chloride
Zinc Chloride

Delivering Added Value

Tennants Metal Treatment division offers a premium range of materials for the metal-processing industry.

We are with you every step of the way, from ensuring products meet your exact specifications to aligning your purchasing with inventory needs. You can rely on Tennants for industry-leading expertise, cutting-edge treatment solutions, and unwavering commitment to quality. Your core business will benefit from our:

- **Industry Expertise**
- **Top-tier Service**
- **Exceptional Customer Support**

Driving Ahead with Safety & Compliance

Safety and responsibility are at the forefront of our operations. We are committed to the safe delivery, handling and storage of all the chemicals we supply. Our focus on regulatory compliance and best practice ensures that our customers receive products appropriately packaged and delivered safely.

Our privately owned fleet is dedicated to ensuring stringent quality control standards and timely delivery, so your orders arrive in excellent condition, keeping your operations running smoothly.

Additionally, to ensure regulatory compliance, we offer wastewater process consulting. Our team of technical experts will work with you to identify issues, implement solutions and improve your wastewater treatment process.
